

I have been a K-Love listener for many years and I'm dissappointed that with the new LPFM format, it may no longer exist. K-Love always plays uplifting music and has a dramatic impact in the community. I can't even begin to tell you how many folks I have told about their station. If K-Love was to be displaced by an LPFM broadcaster, it would be devastating to the community. So many young people are impacted by this music station. I hear story after story of teenagers being positively impacted by the upbeat music they hear on K-Love. I believe the service provided by K-Love is critical to allowing wholesome music to be played. It really is uplifting and fun. Please, don't let us loose K-Love
